- **Safe on Plastic, Plexiglas, Fiberglass, & Rubber**
- **Safe on Skin**
- **Safe on Turf & Foliage**
- **Non-D.O.T. Regulated**

EMS is proud to announce Players Choice, five new cleaners, degreasers and washes utilizing patented technology that is revolutionizing golf course maintenance.

EMS has long used the power of its patented SynTech®, the world's only synthetic acid, to safely replace harmful acids and caustics across a wide variety of industries. Equally famous are our patented degreasers which encapsulate grease and fats without the use of solvents and butyls. What's more, these ingredients are non-regulated, non-corrosive, non-skin irritant and biodegradable, yet pack enough punch to remove calcium, scaling and the heaviest grease build up.

### Grounds Keeper

Our concrete and asphalt cleaner removes rust, iron and mineral stains, dirt, grime, light grease, mildew and efflorescence from your sidewalks, cart paths and parking lots. It's even safe on stucco, brick and stone, and will not etch the windows on your buildings. It will also return your spray tanks to their original color.

### Golf Cart Wash and Wax

Our synthetic acid and degreaser makes all the difference in our unrivaled golf cart wash. We add UV deterrents, plastic conditioners and polymerized wax into a simple, one-step process. Apply and rinse to remove all signs of dirt, grime, grease, even scuff marks while protecting your vinyl, tires, fiberglass and Plexiglas® from the elements.

### All-Purpose Cleaner

Clean your equipment and tools without corroding the finish and without the environmental and safety concerns that come with harsh solvents. All-Purpose Cleaner safely lifts grease and grass from any surface. Our detergents, penetrates, rust and corrosion inhibitors make it a true all-in-one cleaner for any use.

### Golf Ball Wash

We add microbials to our products to attack proteins, safely melting away dirt and grass instantly.

### Pro Spotter

Pro Spotter is your all-in-one spot remover and floor cleaner. It instantly removes grime, grease and dirt from your carpets, floors and vinyl coverings, and, because it's powered by SynTech, no other product can clean your tile and grout faster and more completely.
