- ✓ **Safe on all bus surfaces**
- ✓ **Non-corrosive**
- ✓ **Non-fuming**
- ✓ **Strongest products available**
- ✓ **Protects against elements**
- ✓ **Approved by leading OEMs**

EMS products have long been recognized and approved by truck manufacturers including Mack, Oshkosh, and Volvo as effective alternatives to harsh acids and caustics.

Now that technology is available in unique formulas specifically designed to wash bus fleets, light rail, police cars, fire engines and ambulances.

Torque

This all-in-one wash and wax easily removes dirt, road grime, magnesium chloride, black streaks and water spots. Torque has been tested by Blue Bird bus and their paint provider PPG, and proven safe on all bus surfaces.

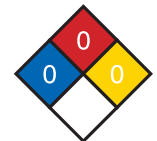

FogXpt

A simple spray-on application of FogX provides a month of protection from the streaking, rusting, corrosion and dulling that can occur during storage. Now there's a cost effective way to protect your fleet from the elements.

Purgo Antimicrobial Cleaner

Purgo can be used on any surface of the vehicle interior to leave a hygienic surface. Diluted with 64 parts water it becomes a spray that can be left to evaporate, removing odor causing bacteria in seconds. Ideal for school or city buses, police cruisers and ambulances.

EMS products are powered by our patented SynTech® and SynClean® acid and caustic replacement technologies. Every EMS product has earned a triple-zero HMIS score, which means no personal protective gear is needed.

"Torque has proven through testing to easily remove dirt and road grime, even in severe conditions. More importantly, Torque has earned the recommendation of our paint manufacturer, PPG, so we know it cannot damage the paint finish or void the vehicle warranty."

Key Buckner
Paint Manager at Blue Bird

"EMS formulations have replaced several hazardous chemicals we used before to keep our buses clean. The EMS products clean very well, the buses are easier to keep clean and our employees appreciate that there are no fumes. We never knew green products could perform so well."

Mike Perry
Hampton Road Transit

BLUE BIRD[®]

EMS products are the only washes and coatings guaranteed by Blue Bird not to void your warranty.
